Education

B.Tech in Computer Science Engineering
Graphic Era Hill University, Dehradun

August 2023 – Present
CGPA: 7.91/10

Technical Skills

Programming: C++ (DSA, STL), C, Java, Python

Relevant Course Work: Data Structures, Algorithms, Operating Systems, Computer Networks, Object-Oriented Programming

Web Development: HTML, CSS, JavaScript

Blockchain: Solidity, Smart Contracts, Web3.js

Databases: SQL, MongoDB

Tools/Libraries: Git, Pandas, NumPy

Projects

Decentralized Voting System - (Repository)

March 2025 – April 2025

Solidity | Cryptography | Smart Contracts | Distributed Ledger

- Built a secure blockchain-based voting platform that handled 300+ simulated votes with zero duplicate entries.
- Implemented cryptographic authentication, reducing fraudulent voting attempts by 100% in test scenarios.
- Automated vote tallying using smart contract execution for accuracy and reliability.
- Designed the system with a focus on scalability and transparency.

Multithreaded HTTP Proxy Server - (Repository)

July 2025 – December 2025

C | TCP/IP | Socket Programming | Multithreading | Operating Systems

- Handled 100+ concurrent client requests using multithreading and synchronization mechanisms.
- Reduced average response latency by 25% through optimized request forwarding and caching strategy.
- Achieved 99% uptime during simulated high-load tests.

Smart Tour - (Repository)

December 2025 – February 2026

Java | Data Structures | REST APIs | SQL | Full-stack Development

- Designed and developed a travel planning application that serves 150+ test users with personalized itinerary generation.
- Integrated third-party REST APIs to fetch real-time location data and recommendations.
- Created a SQL-based backend that manages 1,000+ location records with optimized query performance.

Certifications

- Oracle Cloud Infrastructure AI Foundations
- Blockchain and Cryptocurrency (Udemy)

Leadership & Activities

- Qualified GATE 2026 (Score: 351)
- Participated in a 24-hour competitive hackathon, collaborating to design and prototype a working solution.
- Volunteer, National Service Scheme (NSS) – Contributed to social and community initiatives.
